To Whom It May Concern:

We couldn't more passionately endorse Mike Randall's Big Blue Trunk adventures and experiences as one of the most enjoyable, memorable, fun, and exciting experiences that we are able to provide to our kids. We have had Mike come back repeatedly because each time the kids find joy in all that he creates. The combination of Mike's creativity, imagination, and enthusiasm, paired with a never ending trunk of supplies, equipment, and games, all keep our campers happily engaged for hours. Additionally, Mike's rapport with both the kids and staff is top notch. He is a role model for staff, showing them how to get involved and have fun, but while maintaining a safe and controlled environment. Mike taps the potential of every kid and draws out their participation and a smile. He is kind and respectful, as well as funny and crazy!

If you are looking to provide your kids with physical activity that promotes creativity, imagination, and fun, The Big Blue Trunk is right for you. Mike and his trunk of tricks will make you laugh, play, and enjoy for many hours, and for many years to come.

Sincerely,

Brad Luck
Director
